

## Silver Lane Celebrates One Hot Summer!

**New York, NY**, September 13, 2016 — No, it wasn't your imagination... July actually was the hottest month for global temperatures since scientists began keeping tabs in the 1880s. Blistering heat scorched every corner of the globe, with one report out of Kuwait of a simmering 129.2 degrees — a record for the Eastern hemisphere.

Here at Silver Lane Advisors, we're pleased to say that it wasn't just the thermometer that was on a hot streak this summer. Our firm has announced seven deals in the Investment Management & Securities Industry since June 1 — more than twice as many as the #2 industry player during this period.
